

# Arrive Utah and Circles Policy Priorities

We want all Utah families to thrive, not just survive.

We want all Utahns to have access to safe, adequate, and affordable housing (not paying more than 30% of their income on housing). We value planning which safeguards future affordable housing and creates diverse communities.

We favor policies that ensure all Utahns are food secure with enough safe and nutritious food each day.

We encourage essential public and private assistance to help individuals move toward economic stability with a gradual reduction of assistance as people progress.

We advocate for financial policies, including tax and fee structures, which are not disproportionately burdensome on vulnerable populations, especially populations with low incomes.

We support efforts that create identifiable and feasible pathways for individuals to secure living wage jobs in all Utah communities.

We want all Utahns to have access to high-quality and affordable health care.

We join concerted efforts to protect vulnerable populations throughout Utah communities from predatory and unfair practices.

We believe that “equal justice under law” is only possible when all people have high-quality legal help and protection.
